

The Virginia Community Reentry Approach

Vision

A Commonwealth in which people previously incarcerated access quality services to assist them in becoming productive citizens thus promoting safer communities and stable families.

Mission

The Virginia Community Reentry Approach strengthens public safety through a collaborative community-based initiative that provides opportunities for people previously incarcerated, that supports families and that reduces recidivism.

Values

All people have worth and deserve to be treated with dignity and respect
Community collaboration strengthens effectiveness
Integrated service delivery is cost effective
Stable families support children's healthy development and future success
Safe communities are the best environment in which to live and work

Goals

Increase public safety through reduced recidivism
Maximize opportunities for people returning to the community after incarceration
Support family and community integration for people returning from incarceration
