RIGHTS AND RESPONSIBILITIES OF RESIDENTS OF ASSISTED LIVING FACILITIES

STANDARDS FOR LICENSED ASSISTED LIVING FACILITIES

PART I. GENERAL PROVISIONS.

22 VAC 40-72-10. Definitions.

The following words and terms when used in this chapter shall have the following meanings unless the context clearly indicates otherwise:

"Activities of daily living (ADLs)" means bathing, dressing, toileting, transferring, bowel control, bladder control and eating/feeding. A person's degree of independence in performing these activities is a part of determining appropriate level of care and services.

"Administer medication" means to open a container of medicine or to remove the ordered dosage and to give it to the resident for whom it is ordered.

"Administrator" means the licensee or a person designated by the licensee who is responsible for the general administration and management of an assisted living facility and who oversees the day-to-day operation of the facility, including compliance with all regulations for licensed assisted living facilities.

"Advance directive" means, as defined in § 54.1-2982 of the Code of Virginia, (i) a witnessed written document, voluntarily executed by the declarant in accordance with the requirements of § 54.1-2983 of the Code of Virginia or (ii) a witnessed oral statement, made by the declarant subsequent to the time he is diagnosed as suffering from a terminal condition and in accordance with the provisions of § 54.1-2983 of the Code of Virginia. The individual or his legal representative can rescind the document at any time.

"Ambulatory" means the condition of a resident who is physically and mentally capable of self-preservation by evacuating in response to an emergency to a refuge area as defined by 13 VAC 5-63, the Virginia Uniform Statewide Building Code, without the assistance of another person, or from the structure itself without the assistance of another person if there is no such refuge area within the structure, even if such resident may require the assistance of a wheelchair, walker, cane, prosthetic device, or a single verbal command to evacuate.

"Assisted living care" means a level of service provided by an assisted living facility for adults who may have physical or mental impairments and require at least moderate assistance with the activities of daily living. Included in this level of service are individuals who are dependent in behavior pattern (i.e., abusive, aggressive, disruptive) as documented on the uniform assessment instrument.

22 VAC 40-72-10. Definitions.

"Assisted living facility" means, as defined in § 63.2-100 of the Code of Virginia, any congregate residential setting that provides or coordinates personal and health care services, 24-hour supervision, and assistance (scheduled and unscheduled) for the maintenance or care of four or more adults who are aged, infirm or disabled and who are cared for in a primarily residential setting, except (i) a facility or portion of a facility licensed by the State Board of Health or the Department of Mental Health, Mental Retardation and Substance Abuse Services, but including any portion of such facility not so licensed; (ii) the home or residence of an individual who cares for or maintains only persons related to him by blood or marriage; (iii) a facility or portion of a facility serving infirm or disabled persons between the ages of 18 and 21, or 22 if enrolled in an educational program for the handicapped pursuant to § 22.1-214 of the Code of Virginia, when such facility is licensed by the department as a children's residential facility under Chapter 17 (§ 63.2-1700 et seq.) of Title 63.2 of the Code of Virginia, but including any portion of the facility not so licensed; and (iv) any housing project for persons 62 years of age or older or the disabled that provides no more than basic coordination of care services and is funded by the U.S. Department of Housing and Urban Development, by the U.S. Department of Agriculture, or by the Virginia Housing Development Authority. Included in this definition are any two or more places, establishments or institutions owned or operated by a single entity and providing maintenance or care to a combined total of four or more aged, infirm or disabled adults. Maintenance or care means the protection, general supervision and oversight of the physical and mental well-being of an aged, infirm or disabled individual. Assuming responsibility for the well-being of residents, either directly or through contracted agents, is considered "general supervision and oversight."

A resident is presumed competent and is responsible for making all health care, personal care, financial, and other personal decisions that affect his life unless a representative with legal authority has been appointed by a court of competent jurisdiction or has been appointed by the resident in a properly executed and signed document. G. The facility shall ensure that the care and services specified in the individualized service plan are provided to each resident.

EXCEPTION: There may be a deviation from the plan when mutually agreed upon between the facility and the resident or the resident's legal representative at the time the care or services are scheduled or when there is an emergency that prevents the care or services from being provided. Deviation from the plan shall be documented in writing, including a description of the circumstances, the date it occurred, and the signatures of the parties involved, and the documentation shall be retained in the resident's record.
