

Approved Restaurant Owners can now accept SNAP meal purchases

The Virginia Department of Social Services, in partnership with the United States Department of Agriculture, is making it easier for qualifying SNAP households to have greater access to hot, prepared meals in Virginia. We're looking for restaurants like you to join this program and make a difference in fighting chronic hunger for certain groups of Virginians.

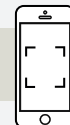

Benefits of Joining the VRMP:

- » **Community Engagement:** Show your commitment to the community by helping those struggling with food insecurity. Become a neighborhood favorite and foster goodwill.
- » **Marketing Opportunities:** Participating restaurants are promoted through VDSS channels, raising your visibility and attracting more customers.
- » **New Revenue Stream:** Receive revenue through a new source of income for your business.
- » **Streamlined Transactions:** SNAP meal transactions happen through a dedicated point-of-sale device for a smooth purchasing experience.

Learn How to Join the Program

Interested restaurants owners can learn more about the program and find application materials at dss.virginia.gov/VRMP. Restaurant owners will be notified once the forms are submitted and approved by VDSS and the USDA Food & Nutrition Service. VDSS will provide signage for the restaurant indicating it is a designated VRMP participant.
