### **Description of Early Prevention Services (prior to a current, valid CPS report)**

Roanoke City Department of Social Services provides a system of services to the general public and individual families. Roanoke City utilizes volunteers to provide some of its prevention services. They also use Family Partnership meetings (FPMs) in early prevention. The staff facilitates alternate living arrangements with relatives or non-relatives for a child at risk of removal and entering foster care (Foster Care Diversion). They also directly provide services to any of the 'diversion families' and/or birth families involved after they have facilitated an informal out of home alternative living arrangement

Roanoke City Department of Social Services has a specific staff devoted primarily to prevention. These staff members provide public education and awareness activities on prevention to the general public and early prevention services to individual families.
