REMINDER: You recently received a request to complete a survey requesting information on your placement capacity for migrant children. Your feedback will assist in the determination of Virginia’s ability to serve this population if needed.

If you have not already completed the survey below, please provide your responses by Friday, April 23, 2021.

Thank you for assistance.

VDSS has been contacted by the US Department of Health and Human Services Children’s Bureau with a request for assistance in placing the increasing numbers of unaccompanied minors crossing our nation’s border. The Children’s Bureau is in the process of contacting states for voluntary assistance in providing shelter and care for these children on a temporary basis. In order to respond to the Children’s Bureau, Virginia is assessing current capacity and willingness of providers to provide assistance. The Children’s Bureau indicates that providers would need to be willing to provide a minimum of a 60-day placement, possibly longer.

VDSS is requesting your participation in a survey to allow us to assess current potential capacity and availability to provide care. Your participation in this survey does not create any obligation for future care, even if you indicate your agency has potential capacity for placement.

The majority of the youth needing placement are teen males (70%) from ages 15-17 while the remaining 30% are younger children, sibling groups, and pregnant/parenting teens. Placements will be federally funded. More information is
forthcoming on the need for an emergency federal contract. Agencies will need to provide case management and education as these children will not be enrolled in school.

Please respond to the survey by **Friday, April 23, 2021**. Please contact Brenda Sampe at b.sampe@dss.virginia.gov if you have any questions.
